NOTES

1. The date shown in column headed "Pay Entry Base Date" is the date which reflects all service for pay purposes.

2. Attention is invited to the fact that in all communications concerning officers, the file number is used, not the register number.

3. The information published in this register is that contained in Bureau of Naval Personnel punched card records. Errors or omissions should be reported by letter to the Chief of Naval Personnel by the Naval Reserve officer concerned.

4. Register numbers assigned in this edition indicate relative precedence among officers of the same grade in the line or applicable staff corps. An asterisk appearing at the left of the register number denotes the officer concerned has been appointed to the next higher grade but has not, at the time of publication, accepted the appointment. The register number reflects relative precedence in the higher grade in such instances.

5. Register numbers of officers who are entitled to ranks indicated, solely by virtue of Public Law 305, Seventy-ninth Congress, commence with 900,000 in each grade of the line and staff corps.

6. Register numbers of ensigns with dates of rank in the years 1950 and 1951 and lieutenants (junior grade) in the staff corps with dates of rank in the years 1950 and 1951 are purposely omitted pending establishment of relative precedence. Register numbers are not assigned ensigns with designator 1135.
